Pricing & Taxes

Product prices are listed excluding any taxes. On the checkout page we calculate and charge UK VAT by default. If you select the country in which you are located as other than the UK but within the EU you will have the option of validating an EU VAT number in order to remove the VAT. If you select the country in which you are located as a non-EU country then you will not be charged tax at checkout.

In all circumstances you remain responsible for paying all taxes and charges required by any and all jurisdictions within which you make a purchase from this website.

We aim to ensure that prices are correct at time of publication, however they may be amended without notice. Despite our best efforts mispricing may occasionally occur. We will verify pricing when processing your order. If we have made a mistake and a product's correct price is different from the price on the website, we may either contact you before dispatch to request whether you want to buy the product at the correct price or cancel your order.

You may pay in GBP (£), EUR (€), or USD (\$) by selecting the desired currency at checkout. Our prices are generally fixed in each currency rather than recalculated based on current exchange rates. Your choice of currency is independent of the tax calculation. The default currency in which pricing is displayed is dependent on the location associated with your IP address.
